DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over the disclosed prior art and in further view of Glang et al. (US 4,467,519).

a. The Disclosed prior art discloses the limitations of:

Forming a window (1, fig. 1A) in the polysilicon layer;

Doping the predetermined area (5, fig. 1B); and

Forming spacer (9, fig. 1D) in the self-adjusting manner with respect to an edge of the window.(page 5, line 8 – page 7, line9)

b. Glang discloses:

Diffusing the dopant outward from the first region (col. 6, Ins. 41-50).

Therefore one of ordinary skill in the art would combine Glang with the disclosed prior art in order to create a base with sufficient width and doping to avoid punch-through.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2812

4. Claims 9 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The examiner does not see a picture or description of a link between the base region and a polysilicon track or the formation of an emitter.

5. Claim 13 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected device, there being no allowable generic or linking claim.

Election was made **without** traverse in a telephone interview with applicant's representative.
